

My Amaro Herbal Liqueur

Since 1832 the Inga family has been producing premium grappa's and Italian liqueurs. Lornezo Inga, Jr. is the fifth generation to this family tradition.

My Amaro herbal liqueur is made artisanally with more than 20 different herbs, roots, and tree bark with the infusion in pure alcohol and water. The infusion is rested for over 45 days, generating an aromatic concentrated marriage of different perfumes and scents before dilution and bottling the final product.

My Amaro's tasting profile produces hints of bitter oranges, mint, flowers, rhubarb and other select ingredients for you to enjoy.
